"And whereas the Collector of His Majesty's Customs for the time being of the Port of Drogheda is by the said recited Acts, authorized and required to demand and collect the *rates and duties* therein granted to the Commissioners appointed for the Improvement of the said Port and Harbour, and is thereby empowered to charge at the rate of one shilling in the pound as Receiver's fees thereon, and whereas since the passing of the said Acts a considerable extent of ground has been gained and recovered from the said river by the building of additional quay walls, which said ground has been let by the said Commissioners, pursuant to the powers vested in them by the said first recited Act, for the purpose of erecting stores and other buildings thereon, the rents of which, according to the provisions of the said last mentioned Act, form a part of the funds for the improvement of the said Port and Harbour; and whereas it appears reasonable that the said Collector should be entitled to charge the same poundage on the receipt of the said rents for his trouble in receiving the same as by the said Act he is allowed to charge for the collecting of the said *rates and duties*: Be it therefore enacted, that from and after the passing of this Act it shall and may be lawful to and for the said Collector to charge at the rate of one shilling in the pound on the amount of all such *rents* as shall be received by him: &c.

									63,062	10
From which must be deducted the amount of the above instalments received on account of the sum of 138 £ s. d., advanced to the parish of Athy as above stated, and improperly given credit for in Charge, because this sum was already charged against Accountants by being included in the Balance in favour of the Public, and consequently was a double debit, so credit having ever been obtained for the original sum advanced to said parish

Note.—The Accountant's Balance is decreased p.s. 11 d. by the correction of an error appearing on the face of the original Account, the amount received in instalments in repayment of Glebe house Loans having been over-brought to Charge in that amount.

	£.	s.	d.
The above Balance brought down	53,953	18	5
From which must be deducted, being Amount of Sixth Instalment in repayment of the sum of 1884. p.s. 2 d. formerly advanced for building a Glebe house in the Parish of Athy, Diocese of Dublin, and now erroneously given credit for in Charge; because no credit was obtained for the original advance, and this sum forming part of the Balance in favour of the Public with which the Accountants are already charged, of course it is a double Debt, and we have therefore struck it out of Charge	5	10	9
The true Balance in favour of the Public then is	53,948	7	5

The above Balance brought down	£. s. d.	61,011 9 3
To which must be added, taken Credit for under the head of Incidents, as so much brought to Charge in the preceding Account, but which sum having been corrected by an alteration of the Balance of that Account, it is now finally disallowed by Us		— 9 14
From which must be deducted, in consequence of the corrected Balance of last Account in favour of the Public having been over brought forward to this, the same not having been ascertained when this Account was made up	£. s. d.	61,011 19 1
And a sum, being the amount of a seventh instalment in repayment of a sum of 133 <i>l.</i> 9 <i>s.</i> 2 <i>d.</i> , formerly advanced for building a globe house in the parish of Ashy, diocese of Dublin, and now erroneously given Credit for in Charge, because no Credit was ever obtained for the original advance, and this sum forming part of the Balance in favour of the Public with which the Accountants are already charged, of course it is a double debit, and We have therefore struck it out of Charge	5 10 9	11 11 8
The true Balance in favour of the Public then is	£.	61,000 7 3

These Accounts, as amended, are just and true, except in the items underneath alluded to.

In reporting on these three years' Accounts of the Trustees of First Fruits, We have to observe that the delay in sending them out of Our office has principally arisen in consequence of repeated and unsuccessful efforts to obtain a more satisfactory proof than has hitherto been presented to Us, to substantiate items given credit for in each of the three years' Accounts, as "Amount of First Fruits out of Ecclesiastical Benefices."

In the year ending 31st January 1849	£. s. d.
Ditto " " ditto " 1850	105 19 5
Ditto " " ditto " 1851	840 4 7½
Ditto " " ditto " 1852	170 8 8

This Revenue of "First Fruits" (being the first year's supposed value of every spiritual living to the kingdom) had from the time of Henry the Eighth been vested in the Crown, till by the treaty of Union it was transferred to Trustees for disposal. The amount to the present day has always been on a valuation of the time of Henry the Eighth, called "Valor Beneficiorum."

The collection of this portion of the funds of the Trustees rests with a private officer, called the Remembrancer and Receiver of First Fruits. It has been the practice for this officer to pay in, to the Credit of the Trustees, yearly, the net amount of the revenue of the preceding year, and erroneously, as stated by Dr. D'Olier, Secretary to the Trustees, to surrender an account to their Treasurers.

Dr. D'Olier, the responsible officer of the Trustees, however, being called on to state what he knew as to the fidelity of the management of this revenue, in its receipt, or the deductions made thereout, has uniformly stated his inability to give any information which would lead to an official declaration that this item of the Account was just and true.

We then made application to the private officer, the Remembrancer and Receiver, for Documents necessary to support the Accounts; the Balances on which he had paid over to the Trustees. In the first instance the Remembrancer and Receiver held an opinion that, being an officer of the Court of Exchequer, his responsibility to account for the First Fruits was confined only to his superior in that Court, but which responsibility appears to be merely nominal; finding, however, in reference to the power vested in this Board, that such an opinion was not tenable, he has subsequently expressed a willingness to supply any documents We might specify as necessary to support the items in discussion. In consequence of this concession We directed Our officer to forward a requisition to the Remembrancer, designating specific books, stated by him in evidence to be in his possession, and requiring that the same should be supplied as Vouchers for the Credits given in the separate Accounts. A considerable time has passed since this application, but no reply has been received by Us; and in the absence of these documents We feel ourselves incompetent to decide whether the Credits, as receipts for First Fruits, have been faithfully brought forward or not on these Accounts.

Memorandum.—The following sums not having been paid to the parties, cannot, of course, be credited to Accountants; viz.

CLONTARF SCHOOL:

Allowance for dinner persons in the Infirmary, short calculated	-	-	10 10
John Dwyer & Co., for builder's work, bill undercast	-	-	10 -
Martin Brady, for carpenter's work, bill under calculated	-	-	10 -

This Account, as amended, is just and true.

In the present Account the Incorporated Society have again claimed credit for the sum of 4,339 l. 17 s. 3½ d., with the view of relieving themselves from an imputed deficiency of this amount, as stated by Us in Our Eleventh Report, on the Account to 31st January 1832, and which has formed, in consequence of annually repeated discussions, a principal subject of Our Reports on this Account, for the succeeding years to 1834, when the Society claimed a credit similar to the one set up in the present Account, which we then disallowed; and for the reasons governing that decision, We beg leave to refer to Our Fifteenth Parliamentary Report.

On the present occasion no new matter has been presented to Us by the Incorporated Society which would lead to a revision of Our opinion; the grounds on which they hope to succeed in establishing this credit are those which have been previously urged, viz., an erroneous debit of the Society in the Account ended 31st December 1800. With respect to this assertion, it is admitted that, on reference to the original Account of that period on record in this office a credit of that nature was given to the Public; and had not the Society, for so long a period afterwards, acquiesced in Our recorded Balances, in which this item alleged to be erroneous had been included, and had they not at a subsequent period, when, by an improvement in Our own system of examination, We entered into a detailed analysis of the Accountants' Balances, made successively defeated attempts to support this Balance, We should have felt inclined to have admitted the credit, in consideration of the period now elapsed, viz. 33 years, combined with the impossibility of having references, owing to the lapse of time, to documents of the Society, which might have led to some elucidation of the transactions of that time.

Under these circumstances, We have renewed Our Disallowance, being unwilling to impose upon ourselves the responsibility of discharging the Accountants from this item, they having, however, expressed a wish that their view of the transaction should be laid before the Public in their own language. In compliance with this request, We beg leave to submit the annexed statement, furnished to Us for that purpose, presuming at the same time to express Our opinion, that there is no reasonable hope that any further delay will open any new avenues of information, the Society having from the commencement evinced every laudable solicitude to supply whatever their existing records could afford.

"GENTLEMEN,

"Incorporated Society House,
27th April 1835.

"With reference to the sum of 4,590 l. 13 s. 8½ d., late currency, for which credit is claimed in the Account of the Incorporated Society to 31st December 1831, as 'an item that was improperly introduced into the Charge of their Account to the 31st of December 1800,' we conceive that it is unnecessary now to enter into any enlarged statement of the several conjectures and explanations which have occurred with respect to the origin of this error; referring therefore to the labours and voluminous statements, made out and furnished in the course of the years 1823-4-5, We can only now say, that in consequence of some of the most important books of 1800 not having been preserved, it perhaps would not be possible, at the present day, to unravel the difficulties in which the Account is involved.

"The present officers of the Incorporated Society having had the management of the Accounts only for the last five years, merely view the question as the Commissioners of Accounts have done, and give an opinion, grounded on the manifest absurdity and errorateness of the entry itself, and on the strong presumptive evidence obtained from the minute books of that period.

"You, Gentlemen, have stated your decided opinion that the entry was an erroneous one, and would have discharged the Society of the amount had the proof been sufficient to satisfy your conscientious scruples. We, however, do not now come before you to require you to take upon yourselves the responsibility of allowing it; but We request that you will report your opinion to the Lord Lieutenant, with a view that His Excellency may authorize its being struck out of the future Accounts of the Incorporated Society."

"We have the honour to be, Gentlemen,

"Your most obedient humble servants,

"John Ponsonby, Chairman of the Committee of Accounts.

"John Torrens, Member of the Committee of Fifteen, and also of Accounts.

"Census Office, Secretary.

"William Pielgton, Accountant."

"The Commissioners of Public Accounts."

The Accounts of the Company of Undertakers of the Lagan Navigation, which are the subject of the present Report, comprise four years, ending 5th January 1830, and were not sent to Us for Audit till 14th June 1830, though frequent applications requiring the surrender of them had been made by this office to the Company.

We had occasion to give Our opinions, in considerable detail, on the principles and system acted upon by the Company, in Our Reports on their Accounts from 1823 to 1826, and to which We now beg leave respectfully to refer the attention of the Government, at the same time expressing Our regret and surprise that the terms of censure adopted should require to be repeated on the present occasion in their full strength.

The amount of Our final Disallowances on this series of Account is 2,055 £. 13 s. 6½ d., the reason for each item of which appears detailed on the Accounts.

Of this sum 2,040 £. 5 s. 3½ d. has been disallowed for want of Government authority, of which sum 483 £. 16 s. 4 d. was paid to Mr. James McCleery, the Register, to defray the expenses of several journeys to London, to attend on an application to Parliament for an extension of the Company's Act of Incorporation; and also an additional sum of 501 £. 1 s. 1½ d., paid to him as remuneration for his services in prosecuting the claims of the Company for compensation for "Local Duty on Spirits," the Act for granting of which had been accidentally repealed by the General Excise Act of the 6 Geo. 4. c. 58; making the whole sum paid to the Register for these two services 984 £. 17 s. 5½ d.

(90)—LAGAN NAVIGATION—continued.

With respect to the sum of 501 £ 1 s . 1 $\frac{1}{2}$ d . paid him as remuneration, it appears that a debt of that amount had been due to this Company by the Ulster Canal Company so far back as to the Account to 5th January 1826, and in the two succeeding Accounts has been returned as an item, in the state of the Balance, *in favour of the Public*, but which debt has now been assigned over to the Register, "*for his own use*," under the following resolution of the Company, dated 14th April 1826, which We beg leave to submit:

"Resolved,

"That as a remuneration for the extraordinary services of the Register in prosecuting the claims of the Company on Government for a compensation for the duties inadvertently repealed, and for the loss he must have sustained in his private concerns in consequence of his frequent and long protracted absences from home during the last three years, the sum of 500 £ . be paid to him; and he having expressed a wish that the sum owing to this Company by the Ulster Canal Company should be handed over to him, in payment of the above sum now voted to him, it is resolved that the payment to the Register be made by assigning to him, *for his own use* the debt of the Ulster Canal Company; and it is hoped that this vote will stimulate him to continue his exertions to procure the execution of the Ulster Canal."

In reference to the above resolution, it is obvious to remark, that the Undertakers of the Company could have no legal right to transfer the acknowledged property of the Public into the hands of a private individual, whatever may have been their estimate of the value of that officer's services; and on the supposition that so enormous a view of their power over the public property could have been entertained by the Company, it is not intelligible to Us how it could have been exercised with propriety on the present occasion, it appearing by the Accounts that the Register had been in the regular receipt of his annual salary *during his absences in London*; the expenses also of his journeys have been paid by the Company, and an allowance of 100 £ . per annum has been given to a clerk, who conducted the business of the Company in the Register's absence.

We cannot abstain also from observing, that on reference to the Accounts of the Company from 1823 and onwards, it appears that a balance exceeding 1,000 £ . has been held in the hands of the Register, nor is there any evidence before Us that any measures have been taken for its re-payment; and on our submitting a query to the Undertakers why this balance should have been allowed to remain so large in amount, the following reply has been given to Us:

"This balance comprises money paid, for which vouchers have not been obtained, and 207 £ . 12 s . 10 d . interest, which was ordered previous to 24th January 1830, but not paid till after that date; the actual balance in the hands of the Register being however greater than it should be, he has given an additional security."

The balance at present in the hands of the Register is 1,251 £ . 14 s . 4 $\frac{1}{2}$ d ., and the records in this office show that so far back as the Account to 5th January 1826, this person had 1,237 £ . 17 s . 9 d . in his hands; at that time an explanation was required, and the following reply was returned by Mr. McCleery, on oath:

"In reference to the last query, the balance owing by the Register has not been in any material degree reduced; he holds a considerable interest in the stock of the Company, and had not the local duties been accidentally repealed by the general Spirit Act of the Sessions of 1824-25, 6 Geo. 4, c. 58, it would have been in his power, and it was his intention, to have liquidated a considerable portion of this debt. The Lords of the Treasury have informed the Company that they were disposed to propose to Parliament such measures as may be necessary for indemnifying it for any revenue to which the Company may appear to have been legally entitled. When justice shall have been done the Company, the Register will be enabled, as he is disposed, to proceed rapidly with the liquidation of the debt."

The Register appears to have received, within the last four years, for salary, travelling expenses to London, and compensation, 2,377 £ . 3 s . 5 $\frac{1}{2}$ d ., and the debt not liquidated but increased in amount since the year 1826.

We have included in the above Disallowances the sum of 525 £ . taken credit for as paid to Philip Courtenay, being counsel, for his "*professional services*." No specification of these services has been furnished to Us to assist our judgment in forming an estimate of the justice of the claim: so far, however, as an argument from analogy may be admitted, We have no recollection of any precedent being afforded for a payment of so large an amount, for services of "*counsel*," by any Accountant under similar circumstances.

The annual Audit of the Accounts of Infirmaries of Counties and Hospitals of Public or Royal Foundation, provided for by the 46 Geo. 3, c. 95, being repealed by the 52 Geo. 3, c. 52, the Commissioners of Public Accounts, in the exercise of the discretion confided to them by the 15th section of the last recited Act, have confined their annual audit to the Accounts of those Hospitals and Infirmaries which are situated in cities and towns corporate, as the funds intrusted to their management are, in most instances, permanent, and of considerable magnitude; but the funds of the Infirmaries of counties being in general limited to voluntary subscriptions from individuals, and sums presented by grand juries at assizes, before whom the respective treasurers are obliged to account, and the Board of Accounts, convinced by experience that no benefit proportioned to the trouble given to the Accountants, who render their services gratuitously, or to the labour of the office-audit, has resulted to the Public from the annual examination of these Accounts, have determined to discontinue such annual audit, but have desired that the Accounts required by the 46 Geo. 3, c. 95, should be transmitted annually to their office, that the Board, if they should see any occasion, or should be required by Government, may examine them.

The County Infirmaries receive of Public Money only the sum of 92*l.* 6*s.* 2*d.* annually, which, by the 5 Geo. 3, c. 95th, is appropriated to the payment of the surgeon's salary.
